

New IMI Resources

Two-Generation Model: Child & Parent/Caregiver Connection

A new IMI fact sheet highlights the linkage between children and their parent /caregiver's health. Read the fact sheet [here](#).

Top State Medicaid Agency Strategies for Enrollement During COVID-19

A new Health Affairs blog post and complementary report identifies strategies states have used to facilitate timely enrollment for those who are newly eligible due to the pandemic. Read the report [here](#) and access the blog post [here](#).

Advancing Person-Centered LARC Access in Medicaid

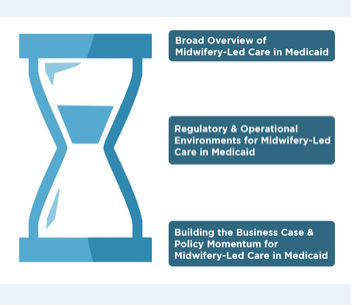

The new report emphasizes the possibility of person-centered care and collaboration improving equitable access to LARC in Medicaid. Read and download the report [here](#).

Recent Announcements

Stay tuned! IMI's Medicaid MCO annual survey report is coming soon!

The findings from the survey are intended to equip Medicaid stakeholders with the information needed to accurately articulate the national narrative about the Medicaid managed care. Learn more about the survey and read previous reports [here](#).

New on the Blog

Introducing IMI's New Virtual Learning Series on High-Value, Evidence-Based Models of Maternal Care in Medicaid

The series applies a birth equity framework to guide and inform how participants can be responsive to the root causes of maternal disparities, especially for Black pregnant and birth people, when considering a midwife-led model of care. Read more [here](#).

State Medicaid Programs and Pathways to Health

IMI's Medicaid state fact sheets, the most downloaded resource on the IMI website, offer a unique opportunity to identify the variation between each states' Medicaid program and the ways in which they serve their enrollees. Read more [here](#).

Emphasizing the "Person" in Person-Centered Contraceptive Care and LARC Access

Using a reproductive justice framework, person-centered care must also consider the context in which individuals live and the other factors that influence contraceptive choice and access. Read more [here](#).

Get Involved!

We have included a summary of the topics and projects that IMI's committees are actively tackling. Are you interested in joining the discussion? Email us at Info@MedicaidInnovation.org.

Dissemination & Implementation Committee

- Best practices in Medicaid managed care.
• Reducing disparities through health system and payment reform.
• Access to high-quality, person-centered contraceptive care via telehealth during COVID-19.
• Access to well-child visits and immunizations for children during COVID-19.
• Impact of changing technology and increased flexibilities during COVID-19.
• High-value, evidence-based maternal models of care.
• Prenatal and postpartum mood disorders during COVID-19.

Subcommittee on the Health of All Women in Medicaid

- Fourth trimester coverage for women enrolled in Medicaid.
• Disparities and state variation in maternal mortality and morbidity.
• High-value, evidence-based maternal models of care.
• Access to contraception and contraceptive counselling services, including long-acting reversible contraception (LARC).
• Updating the women's health section of the annual Medicaid MCO survey.
• Levels of maternity care access during COVID.
• Utilization of IT to increase access to care.
• Women's health across the lifespan including older women in MLTSS.

Child & Adolescent Health Subcommittee

- Two generation model approaches.
• Effect of COVID-19 on children's health on immunization rates and well-child visits.
• State strategies to reduce barriers to children's enrollment in Medicaid.
• Asthma and parental smoking.
• Parental mental health including maternal depression, ACEs, and child abuse.
• School-based health centers in Medicaid.
• Behavioral health in children of essential health workers.
• The collaborative impact of families, schools, and Medicaid health plans to support child health.
• Youth in foster care.
• Childhood obesity.

Behavioral Health Subcommittee

- Behavioral health and telehealth policies during COVID-19.
• Social isolation and loneliness as a result of COVID-19.
• Role of technology in improving behavioral care access, coverage, and outcomes.
• New Medicaid enrollees and behavioral health services.
• Physical and behavioral health integration including value-based payment and high-risk care coordination.
• Substance use disorder.
• Maternal mental health including prenatal mood disorders and postpartum depression.

Data & Research Committee

- Annual Medicaid MCO survey.
• Collection of COVID-19-specific information through the survey.
• Risk adjustment models in Medicaid.
• State Medicaid enrollment form including readability and collection of SDOH data.
• State strategies to facilitate Medicaid enrollment during COVID-19.
• Impact and value of temporary policies enacted during COVID-19, such as telehealth.
• Impact of community health workers and the processes by which they achieve impact.
• Medicaid state facts.
• Current and former foster care individuals in Medicaid.

Annual Medicaid MCO Survey Subcommittee

- Annual Medicaid MCO survey.
• Market analysis and benchmarks on Medicaid managed care.
• Trend analysis of Medicaid MCOs, 2016-2020.
• Collection of COVID-19 specific information through the survey.
• Collection of information related to telehealth, maternal health, and health equity through the survey.

Social Determinants of Health Subcommittee

- Standardized screening of social needs.
• Readability and accessibility of the state Medicaid enrollment form.
• Technology platforms that connect individuals with community health workers.
• Integration and sharing of data and information between MCOs and CBOs.
• Impact of community health workers and the processes by which they achieve impact.
• Impact of COVID-19 on SDOH for Medicaid members and CBOs.

Communication Committee

- World Health Organization's Year of the Nurse and Midwife compendium project phase two.
• Collaboration and dissemination efforts of IMI resources.
• Identifying topics and function of IMI blog.

It's not the statistics that make Medicaid real.

It's when you love one of the numbers.™
