

Annual Medicaid MCO Survey Health Equity

Methods and Overview

In its sixth year, the 2023 survey findings represent health plan data from almost every state with Medicaid managed care. The annual surveys collected information at the parent company/corporate levels and are intended to equip Medicaid stakeholders with the information needed to accurately articulate the national narrative about Medicaid managed care.

Health Plan Tax Status

- Private Nonprofit
- Private For-Profit
- Government or Other

Health Plan Markets

- Single State
- Multistate

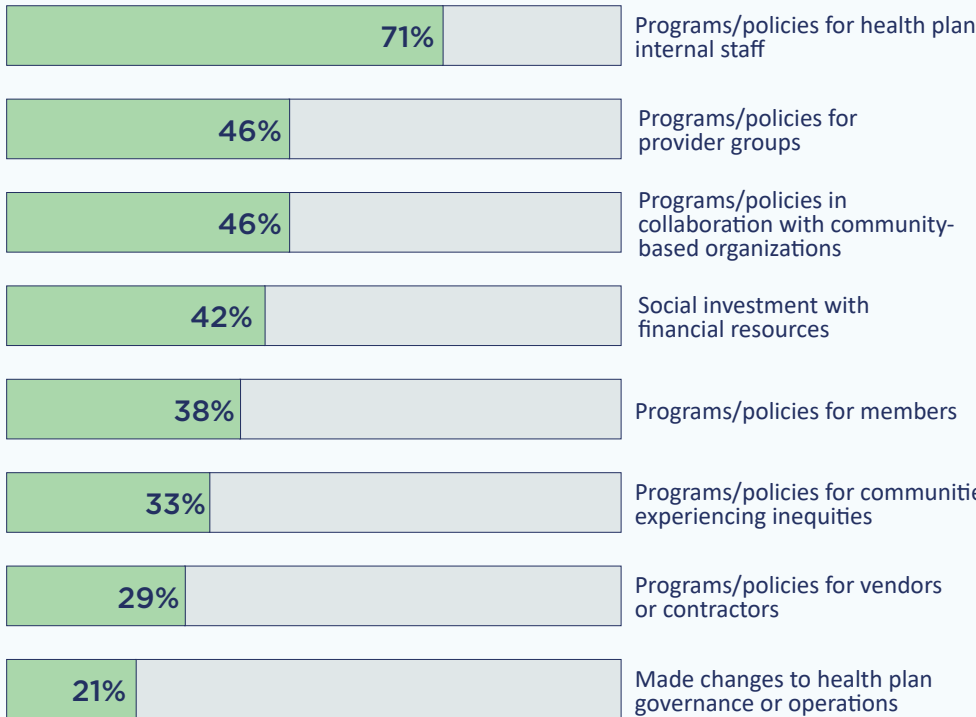

Health Plan Size

- Small Health Plans (<250K Covered)
- Medium Health Plans (250K-1 Million Covered)
- Large Health Plans (>1 Million Covered)

Challenges Medicaid Health Plans Encounter when Integrating Publicly Available Data Sources into Their Operations to Address Disparities

35%	Data received was incomplete and/or inconsistent
35%	Level of granularity needed not available in public data sources
30%	Other*
17%	We do not know what data are available
13%	We do not experience any challenges
13%	The data available does not meet our needs
9%	We were unable to access the data
9%	We did not have the analytic capabilities to use the data

Note: Other* includes differences in geographic areas studied (e.g., Census Tract, Census Block, ZIP Code, County), there is no universal risk model that includes social needs, and still identifying data resources.
